THE PUBLIC BUS SYSTEM

1. Participate in Bus Training

- The foundation of the school program is the public bus system. The staff has a responsibility to make the bus part of the program successful.
- Staff will be given a bus pamphlet.
- Staff members will have an opportunity to ride the bus.

2. Use Wise and Intelligent Judgement

- It is important to make sure that the decision to send a student out alone on the bus is an appropriate decision.
- **The decision to let a student ride independently on the bus is the point whereby a student could get lost. A lost student can be a traumatic experience especially if you were in charge of the student.**
- Use wise and intelligent judgment in all aspects of training the students to ride the public bus.
- Adopt the following standard, **"When in doubt, don't!"** In other words, if there is uncertainty whether the student is ready to ride the bus alone, wait for another day and another time. It is better to be safe than sorry.

3. Utilize the Bus Checklist

- Make sure that every student in the program has a Bus Checklist in the school office file.
- Ensure that the Bus Checklist on each student is completed. If help is needed to do this assignment, talk to the Transportation/Mobility Specialist and/or the Specialist Leader.

4. Know and Teach Bus Rules

- Help students memorize the rules.
- Have them practice calling on the public telephone to tell staff they are lost. Have them practice asking a worker for help.
- **Teach and practice with them to get on or stay on the bus when they are lost and tell the bus driver. Some students will need "help me" cards.**
- Students will see the same people at their bus stops on a regular basis. These strangers become "not strangers." **Teach them the difference between a stranger and an acquaintance. An acquaintance is still a stranger. Students should not give personal information out to a "bus stop friend" nor go off with them.**

5. Know Bus Routes

- Know student's bus route and bus times to school and/or work.
- Give parents prior knowledge of their child's route and times.
- Highlight student's bus schedules and give to:
 - 1) students (to be kept in fanny-pack)
 - 2) parents
- Staff should have access to bus schedules at home/work.
- When student's bus routes change, get new information to parents, Transportation Specialist, and Specialist Leader.

6. Know Bus Crisis Information

- **Losing a student out in the community is frightening and can be a traumatic experience. Especially if you were in charge of the student.**
- If you lose a student, contact the office and be prepared to contact the local bus system to report a lost student. The whole program will rally around and will not rest until the student is found.
- Staff need to have the Bus Crisis Plan at home as well as at work.
